EXPERIENCE

FEB 2018 – OCT 2021
SENIOR IT CONSULTANT, CLEARVIEW CONSULTING

- Analyzed and performed data cleansing using Python to summarize vulnerability scan results and ticketing system information for audit reporting.
- Supported the cybersecurity and compliance practice of a key client by performing weekly access reviews using data generated from custom PowerShell scripts.
- Administered and documented weekly SQL code reviews impacting production changes to critical financial systems including monitoring for privileged access changes.
- Performed several SDLC audits for enterprise application development as well as vendor implementation audits performed on the behalf of the State of Maryland.
- Provided direct client service in areas including Sarbanes-Oxley Compliance and Consulting, 3rd Party Vendor Reviews, and Internal Audit.
- Led and executed several IT Security assessments based on recognized frameworks including HIPAA, SOC 1/2, NIST, HITRUST, and ISO/IEC 27001.
- Supervised and reviewed audit testing work papers completed by staff and interns while providing valuable feedback to subordinates.
- Assisted and coordinated the development and updates of IT and Security Standard Operating Procedures (SOPs) and contributed to governance and policy updates.
- Developed strong knowledge base of business process areas such as logistics, AP/AR processing and financial management strategies while working in various industries including manufacturing, financial services, utilities and not-for-profit.

DEC 2005 – JUL 2014
STAFF SERGEANT, UNITED STATES AIR FORCE

- Led and participated in several protective service details for the President, Vice President, and as well as other high ranking or otherwise distinguished visitors.
- Established a unit learning center with ten computers for personnel to further their professional and personal education.
- Trained and supervised 20 personnel in support of operations critical to national defense.

EDUCATION
